

Title: SAP MDM (Mater Data Management) Consultant
Position: Full-time, Regular
Location: US - Major Metropolitan Area
Relocation: No
Education: Bachelors Degree, MBA Preferred

Job Description:

We are seeking an SAP MDM Senior Consultant to be responsible for the successful delivery of MDM technology initiatives. This position will provide hands-on SAP MDM technical knowledge as well and manage client relationships within the context of the role. This position will assist with SAP MDM process design for data import to MDM, fit / gap assessment, configuration, developing, testing and training. The SAP MDM consultant will perform as a key member of project teams through all phases of the project lifecycle. Preferred candidates should have MDM 5.5 experience and team lead experience.

Desired Skills

Candidates must have 3+ years hands-on SAP experience including 2 full life-cycle implementations based on structured methodology with hands on configuration. 2+ yrs hands-on experience with SAP MDM (Master Data Management) and SAP MDM 5.5 implementation experience. As the majority of our work is performed at client sites, 100% travel will be required and candidates must live near major metropolitan airports.
