**Title:** SAP PLM (Product Lifecycle Management) Consultant  
**Position:** Full-time, Regular  
**Location:** US - Major Metropolitan Area  
**Relocation:** No  
**Education:** Bachelors Degree, MBA Preferred

**Job Description:**

These consultants will use their in-depth SAP/PLM (Product Lifecycle Management) consulting skills, SAP/PLM process and business knowledge and packaged solution expertise to effectively integrate packaged technology into the client's business environment in order to achieve client expected business results.

**Desired Skills**

3+ years of SAP/PLM (Product Lifecycle Management) configuration experience with hands-on technology/process transformation experience in at least 1 full life-cycle implementation in SAP/PLM, and a Bachelor's degree or equivalent experience: Major Field of Study: Computer Science. The SAP PLM Consultant is responsible for the successful delivery of SAP/PLM (Product Lifecycle Management) technology/process deliverables. This role provides technical knowledge and manages client relationships within the context of an individual role. Activities include: configuration of the SAP/PLM module, as well as the development of work products and client deliverables. Consultants are expected to acquire and apply knowledge of all of LeverX's consulting methodologies, key technologies and engagement support tools. The preferred candidate will have experience with: R/3 v4.6 and above with at least one full life-cycle configuration experience with the SAP/PLM including cProjects, cFolders, xRPM, MDM, DMS, Material Master, Classification, ECR/ECO, and associated workflows, and SAP/PLM interface points to other SAP modules. As the majority of our work is performed at client sites, 100% travel will be required and candidates must live near major metropolitan airports.
