

Title: Strategic Product Lifecycle Management (PLM)
Consultant
Position: Full-time, Regular
Location: US - Major Metropolitan Area
Relocation: No
Education: Bachelors Degree, MBA Preferred

Job Description:

LeverX is looking to hire several strategic PLM consultants with exemplary PLM product understanding, consulting skills, business knowledge and industry PLM solutions experience and expertise. You will be responsible for the following:

- Work with clients to establish and drive PLM programs including industry PLM training, process reengineering, RFP support, program management, business justification, solution selections, hardware infrastructure improvements, methodology creation, and change management processes.
- Perform PLM and related solution deployment and implementation evaluations, assessments, readiness for concurrent engineering analysis and total cost of ownership investigation.
- Speak at industry events and support client opportunity development and execution.
- Support SAP's evolution, development and acceptance of SAP PLM solutions to the industry through direct consulting engagements.
- Evaluate and drive acceptance for SAP PLM solutions including integration with other industry PLM solutions as required.

Minimum Requirements:

- A proven and industry seasoned professional, with at least ten years of PLM experience, ten years of product development experience and preferably large-scale SAP implementation involvement. Strongly prefer prior consulting experience but will consider corporate PLM implementation experience with team lead responsibilities.
- Adept at designing and leading technology-enabled business solutions for clients as part of a high-talent team.
- A proven resource in defining systems strategy, developing systems requirements, and implementing practical business solutions under multiple deadlines.
- Committed to gaining exposure to multiple industries while further developing your career.
- Able to collaborate with clients, identify engagement follow-on opportunities, and have a strong desire to excel.
- Industry speaking and training experience.
- At least 5 years of external consulting OR corporate experience in the PLM space, preferably with experience in SAP PLM.
- Must have knowledge of PLM industry, product development systems, PLM solutions, supply chain networks, integrations with ERP systems and multiple industries.
- Bachelors Degree. (Masters Degree preferred)

Desired Skills:

-
- Experience in several of the following areas: PLM, NPDI, MDM, PDM, DMS, ERP, CRM, SRM, and DFSS.
 - Demonstrated leadership ability and skills including management experience.
 - Excellent communication and interpersonal skills.
